PROFESSIONAL SUMMARY

Experienced Full Stack Developer with 3 years of hands-on expertise in designing, developing, and maintaining complex web applications using technologies like ASP.NET, Angular, and React. Adept at delivering scalable and efficient solutions while working in Agile teams. Passionate about learning and staying updated with new technologies. Eager to contribute to a collaborative and dynamic team focused on innovation.

WORK EXPERIENCE

Sword Group

Full Stack Developer

Beirut, Lebanon

Oct 2023 - August 2024

- Spearheaded the development of multiple features for CMA-CGM, a leading shipping company, enhancing crew efficiency with real-time container status updates.
- Implemented event management features that improved user experience and ensured reliable vessel details.
- Led a successful migration of legacy applications to modern versions, boosting performance and functionality.
- Authored and optimized over 10,000 lines of SQL scripts to support vital operations across applications.
- Collaborated closely with clients in weekly meetings to align project deliverables with evolving business needs.

Kronentec

Full-Stack Developer

Beirut, Lebanon

Oct 2022 – Sept 2023

- Designed and built a full-stack application for card production and delivery, incorporating CRUD functionality with Angular and .NET Core.
- Secured application access and data integrity through robust authentication and authorization systems.
- Streamlined internal workflows by developing Windows Forms tools used across departments.
- Actively participated in daily stand-ups, ensuring efficient project management and timely delivery of solutions..

Sword Group

Full Stack Developer - Intern

Beirut, Lebanon

Jun 2022 – Sept 2022

- Developed a real-time ship tracking system using Angular, SQL, and PHP, showcasing problem-solving skills in a fast-paced environment.
- Applied best practices to ensure high performance and accuracy in tracking ship voyages.

No Limits

Full Stack Developer

Beirut, Lebanon

Jan 2022 – Jun 2022

- Built responsive and scalable web applications using Angular for front-end and .NET Core for back-end development.
- Enhanced SQL query performance, reducing application load time and boosting efficiency.
- Contributed to team collaboration and source code management through GIT.
