Summary

With 5 years of experience in UI development, and 3 years focused in Angular, I bring a robust background in enhancing user experiences. Proficient in translating requested designs into reality, I specialize in optimizing both the visual appeal and functionality of websites.

My passion for design and experience in front-end development make me a great fit for projects that need a mix of creativity and technical skills.

Technical Skills

- **Web Technologies and Frameworks:** HTML5, CSS3, SCSS, Javascript, jQuery, Typescript, Angular.
- **Application Technologies:** Cordova, UWP XAML.
- **Tools:** Photoshop, Adobe XD, Figma,Visual Code, Visual Studio, Swagger, PostMan.
- **Source Control:** GitHub.
- **Methodologies**: Agile.

Experience

Nextcare, Beirut, Lebanon

Front-end Developer   **May 2023 – Current**

- Developed 4 shared components using Angular 14.
- Contributed to development of B2C portal for selling insurance policies in Angular 14.
- Implemented business features in B2B portal using ASP.NET MVC.
- Participated in Scrum ceremonies, including daily stand-ups, sprint planning, and retrospective meetings.

Ecomz, Beirut, Lebanon
