JOSEPH ABIAAD

Baabda, Lebanon | +96170281172 | jo_eabiaad@hotmail.com

PROFILE

Dedicated telecom engineer with strong academic foundation, passionate about solving complex technical challenges, committed to delivering cutting-edge solutions that push the boundaries of the field.

EMPLOYMENT HISTORY

♦ **Android Developer, Netvariant** .... Jun 2021 – Jul 2023

Summary:

Experienced Android Developer proficient in **Kotlin**, with a strong track record of success in app development. Proven ability to create robust and user-friendly Android applications, meeting company goals and industry standards.

Skills:

- Kotlin expertise

- MVVM pattern

- Android Studio development environment

- API integration

- UI/UX design collaboration

- Debugging and troubleshooting

- Performance optimization

- App maintenance and updates

- Audio and video player integration

♦ **Intern, Netvariant** .... Apr 2021 – Jun 2021

During my internship, I was primarily assigned GUI tasks, involving the design and development of user interfaces. Additionally, I had the opportunity to work on database-related tasks, helping to manage and organize data efficiently. I also had the chance to create APIs. This experience enhanced my skills in front-end development, database management, and API design, providing valuable hands-on experience in the world of software development.

EDUCATION

♦ **Antonine University** ....Sep 2018 – Dec 2023

Telecommunications and Networks Engineering

♦ **Collège des Soeurs des Saints-Coeurs** ....Sep 2004 – Jun 2018

High School Diploma General Science
