EXPERIENCE

Web Development Intern

 2023

- Learned the fundamentals of web development, including HTML, CSS, and basic JavaScript.
- Built a small blog project to apply basic web design and styling principles.
- Gained hands-on experience with front-end development, enhancing understanding of website structure and user interface.

PROJECTS

Minishell:

 2024

- Built a custom shell in C with functionalities like command execution, piping, redirection, and built-in commands (echo, cd, exit) in collaboration with a partner.
- Used fork(), exec(), wait(), and pipe() for process and I/O management.

Travel Agency Web:

 2024

- Developed a travel agency website using vanilla PHP, HTML, CSS, and SQL.
- Developed a simulated booking system with a mock payment process to demonstrate how the system would work.

EDUCATION

Bachelor in Computer Engineering

 2021 –2024

Lebanese International University (LIU).

Software Engineer

 2024- present

42 Beirut.
