Summary

Dedicated and motivated third-year computer engineering student majoring in Software and Network Engineering with a strong academic background and a passion for technology. Seeking internships or full-time positions to gain practical experience and contribute to innovative projects in the fields of software, networking or other tech-related areas.

Work Experience

Technical Support Specialist

Omega Smart Systems

- Assisted the technical team in diagnosing and resolving various network issues, including signal and frequency challenges, and gained hands-on experience configuring Mikrotik and other networking devices.
- Led the installation of the company's office WiFi network, utilizing a HEX router, switch, Unifi router, and NVR for IP cameras, while ensuring proper IP address allocation and adherence to subnetting rules.

January, 2023 – December, 2023
Shouf, Lebanon

Projects

Web Development Projects:

- Successfully implemented a total of 30 assignments in JavaScript, HTML, CSS, React, and Tailwind CSS during an intensive Full-Stack Web Development bootcamp.
- Leveraged JavaScript features, HTML5 elements, CSS3 techniques, and frameworks like React and Tailwind CSS to enhance functionality and design.
- Displayed selected assignments on my GitHub account, demonstrating proficiency and practical application of web development skills.

Aug 2024 – Present

Car Rental Company System:

- Collaborated in a team to develop a car rental system that implemented user sign-up for new clients and sign-in for returning clients, with differentiated access for administrators and clients.
- Completed the project within an exceptional timeframe of 2 weeks, utilizing C++ data structures and algorithms.

May 2024

University Database Management System:

- Developed a university database management system in a team using MySQL, featuring functionalities for student registration, course enrollment, grading, faculty management, and academic administration, including classes, courses, quizzes, and exams.
- Designed and optimized SQL queries to ensure efficient data retrieval and manipulation, improving overall system performance.

May 2024

Education

B.E. in Computer and Communications Engineering

2022 - Present

Antonine University

Baabda

Courses

Web Development Bootcamp

Aug 2024 – Present

4 Finance Training Center

Semkaneih

Technical Skills

- Programming:** C++ (Advanced), Python (Beginner).
- Web Development:** HTML, CSS and JavaScript (Advanced).
- Frameworks:** Bootstrap, Tailwind CSS, React (Advanced).
- Operating Systems:** Proficient in using Linux.
- Version Control:** Git, GitHub (Proficient).
- Database Management:** MySQL (Advanced).
- Designing:** Figma, Illustrator, Photoshop, After Effects.

Soft Skills

- Problem Solving:** Strong problem-solving skills with a logical and analytical mindset.
- Communication:** Excellent verbal and written communication skills.
- Teamwork:** Proven ability to work effectively in collaborative team environments.
- Languages:** English (Professional), Arabic (Native)

Certificates

- CCNA 1: Introduction to Networks
 - CCNA 2: Routing and Switching Essentials
 - CCNA 3: Scaling Networks
