Sahet Al- Ain, Ghazieh, Sidon, Lebanon • (961) 70-092096 • hibamroumani@hotmail.com • <https://www.linkedin.com/in/hibaroumani/> • <https://github.com/hibamroum>

Front-End Developer with a proven track record of leveraging strong technical skills in HTML, CSS, JavaScript, and modern frameworks like React and TypeScript to deliver high-quality, visually appealing, and functional websites. Adept at using TailwindCSS and Bootstrap for efficient styling and layout design, and proficient in managing version control with Git/GitHub. Team player with excellent problem-solving skills, attention to detail, and a strong commitment to clean, maintainable code. Highly self-motivated and adaptable, with a passion for learning and applying new technologies. Skilled at collaborating with cross-functional teams to achieve project goals independently and in dynamic environments. Dedicated to delivering seamless user experiences through innovative design and development.

Experience

JULY 2024 – OCTOBER 2024

Web Development Intern | HiSoft Agency | Beirut, Lebanon

- Developed responsive and dynamic portfolio websites using React, TypeScript, and TailwindCSS, ensuring optimal performance and exceptional user experience.
- Built a fully functional website with HTML, CSS, and JavaScript, focusing on responsive design and accessibility principles.
- Created a dynamic Kanban board in React with TypeScript, featuring:
 - Manual addition and deletion of tasks and columns.
 - Drag-and-drop functionality for seamless task management.
- Collaborated with teams to implement best practices in coding, testing, and deployment.
- Worked with distributed teams using Git for version control and conducted code reviews to ensure quality and consistency.
- Managed tasks autonomously in a remote setting, delivering high-quality projects with minimal supervision.

OCTOBER 2023 – MAY 2024

Virtual Mart

- Developed Virtual Mart, an interactive virtual supermarket built on Roblox Studio using Lua, designed to teach children budgeting, decision-making, and financial literacy.
- Designed features such as product selection, cart management, and payment using in-game currency ("Kharjeje").
- Implemented a secure parental supervision system where children submit carts for approval via Google Forms.
- Automated the submission of shopping details to real supermarkets in an Excel sheet for delivery upon parental consent.

MAY 2023

Expense Tracker Android Application

- Developed an Expense Tracker Android application to help users monitor their expenses for monthly and yearly periods.
- Implemented functionality for users to insert, delete, and update purchases seamlessly.
- Created detailed reporting features to display monthly and yearly expense summaries.
- Integrated an SQLite Database to securely store and manage user data.
- Focused on enhancing user experience through intuitive navigation and design.
- Demonstrated proficiency in Android development, database management, and mobile app design.

JANUARY 2023

Bank ATM System

- Designed and implemented a Java-based Bank ATM System to help users manage their balances efficiently.
- Developed a Graphical User Interface (GUI) to enable users to check their balance, deposit money, and withdraw money with ease.
- Utilized built-in Java packages, classes, and methods to securely and effectively manage balance operations.
- Focused on user-friendly design and functionality to enhance the overall user experience.
- Demonstrated proficiency in Java programming and GUI development through this project.

Skills

- Programming Languages: Java, C++, Python, PHP, JavaScript, TypeScript, Lua
- Web Development: HTML, CSS, Bootstrap, TailwindCSS, React
- Database Management: SQLite, Microsoft Access, SQL Server
- Version Control: Git, GitHub
- Mobile Development: Android application development
- Game Development: Roblox Studio with Lua
- Tools & Frameworks: VS Code, npm, Figma

Education

MAY 2025

Bachelor of Science in Computer Science | American University of Science and Technology | Beirut, Lebanon

Graduating with Distinction • 3.71 GPA

Certificates

FEBRUARY 2024

First Place of the Web Programming Laboratory | American University of Science and Technology | Beirut, Lebanon
