2018-09 2022-06

Bachelor of Science: Computer Science And Programming
Lebanese University - Hadath

Work History

2023-02 - Current

Web Software Engineer
Allianz Partners, Beirut
- Enhanced user experience by developing responsive web applications with Angular, Typescript, HTML and SCSS
- Identified bugs and fixed them efficiently through thorough testing using manual techniques
- Performed unit testing of web applications and troubleshot issues
- Increased site accessibility by integrating ADA-compliant guidelines in the design process
- Improved overall product quality by adhering to established coding standards
- Accelerated development cycles by utilizing version control tools such as Git for effective collaboration among team members
- Applied Agile methodologies like Scrum and Kanban for better project management, resulting in timely delivery of software products
- Assisted in troubleshooting production issues, ensuring minimal downtime of critical web services for Allianz clients' businesses
- Seamlessly integrated backend APIs into existing systems to extend functionality and improve overall user experience
- Continuously updated skillset by participating in online courses, and staying current on software engineering best practices.

Accomplishments

2022-10 - 2023-02

Trainee
Eurisko, Beirut
- Proficient in building scalable applications with Node.js, leveraging its asynchronous event-driven architecture.
- Skill in developing interactive user interfaces and single-page applications (SPAs) using React.js, including state management with Redux or Context API.
- Experienced in building cross-platform mobile applications with React Native, ensuring seamless user experiences across Android devices.

2021-06 - 2022-01

Trainee
LASeR Academy - Rony Rizk, Beirut
- Developed Node.js applications, including creating APIs with Express.
- Hosted Express APIs on Heroku for efficient deployment.
- Transformed web templates into Angular applications.
- Deployed Angular applications on GitHub Pages for online accessibility.
- Established connectivity between Angular applications hosted on GitHub Pages and Express APIs on Heroku, facilitating data management from Excel files.
- Constructed ASP.NET Core APIs using .NET 6.0 and deployed them on Heroku using Docker containers.
- Proficient in MongoDB, SQL, and Firebase databases.
