Objective

Passionate Full Stack Developer who believes in creating genuine value and memorable experiences. I love diving into open-source projects and am always eager to learn and experiment to improve. I thrive on teamwork, turning ideas into real-life wonders. Currently seeking an entry level developer opportunity, to use my learnings and hone my passion for programming. I'm hard working, empathetic, deciplined, collaborative, and eager to learn from & support the company/team I work for.

WORK EXPERIENCE

Freelance Developer

Development Projects | Beirut - Lebanon | July 2023 – June 2024

Fast Bite | Food Delivery App

Developed using **Android Studio Java** for delivery takeouts. Offers a wide range of local restaurants, using **ASP.NET APIs** to show menu items based on restaurants. It allows the user to track the order placed, in contrast the delivery driver can locate his assigned orders on the same app.

CinemaStyque | Online Movie Library

Built a dynamic movie library website using **ASP.NET Core MVC**. Connected with a **MySQL** database to handle movies, actors and directors' information.

Technical Support Analyst (Remote Position)

Rugged Books Inc | Niagara Falls, ON | Sept 2021 – May 2024

- Deliver and provide technical support to remote end-users
- Provide telephone/online technical support for Installation, configuration, maintenance of Laptops, Mac, Mobile Devices, network equipment, Printing, Digital Media Conference, and other IT services and applications.
- Prioritize and manage service support requests in line with expected service levels targets.
- Monitor and update the service delivery system for assigned tickets and assigned locations.
- Prepare and provide support documentations, including procedural documentation when required.
- Provide Training as required to the end-users.

Administration Assistant High School

Lebanese International University, Faculty of Engineering | Beirut| Jan – June 2020

- Administrative work including filing documentation.
- Supported different teams in preparing presentations for students, preparing for labs, facilitating programs.

Full-Stack Developer Internship

Mentis Nation | Beirut | July – Sept 2024

- Build and maintain an ecommerce website
- Report casually to the team leader and deliver on time

Interests

- Sports: Football & Cycling
- Travelling & Outdoor adventures
- Home Renovation

EXTRACURRICULAR & VOLUNTEER ACTIVITIES

Lebanese Scout Group Leader   October 2018 - Present

- Lead a group of 20 boy scouts with various activities focusing on positive values, social skills, honesty & integrity, importance of community. This resulted in many of my team members becoming active members in the recycling program at our local community center.
- Mentoring assistant leaders in organizing weekly events, trips, preparations, food drives, presentations, and general communication & collaboration skills.
