Profile

I am a computer science student at BAU with hands-on experience in both backend and mobile development. I completed an internship at Forward MENA, where I focused on backend development using Laravel. Additionally, I completed two internships at Xpertbot Academy-one in backend development with Laravel, where I worked on building and optimizing web applications, and another in Flutter development, where I developed mobile applications and enhanced UI/UX functionalities. My diverse experience has strengthened my problem-solving skills and adaptability in software development.

Professional Experience

XpertBot Academy   10/2024 – present
Backend Developer
- I learned Laravel by working with its MVC architecture, Eloquent ORM, and essential features like routing, middleware, authentication, and blade templating
- Gained experience in API development and testing with Postman
- Experienced in database management and request validation
- Strengthened problem-solving skills and understanding of modern web development best practices through hands-on projects

XpertBot Academy   10/2024 – present
Mobile Developer - Flutter
- I learned Flutter by developing mobile applications using its widget-based architecture and **Dart** programming language
- I gained experience in building responsive UI/UX, managing state with Provider, and **integrating APIs** for dynamic data handling
- Additionally, I worked with Firebase for authentication and database management, improving app functionality and performance
- Through hands-on projects, I enhanced my problem-solving skills and deepened my understanding of modern cross-platform mobile development

Forward Mena   present

Backed Developer -Laravel

- Developed **Notera**, a **note-taking app** with a secure and efficient backend.
- Built a **Gym Schedule app**, enabling users to manage workout plans and class bookings.
- Designed and implemented **RESTful APIs**, ensuring smooth communication between the frontend and backend.
- Integrated **database management** (MongoDB/PostgreSQL) for efficient data storage and retrieval.
- Implemented **user authentication and authorization** for secure access.

Majid Al futtaim   07/2024 – 08/2024

Operation Coordinator

- **Data Analysis & Reporting** – Compiled reports and analyzed operational data to support decision-making.
- **Communication & Collaboration** – Worked with different teams to ensure smooth operations.
- **Problem-Solving** – Addressed operational challenges and contributed to effective solutions.
- **Time Management** – Managed multiple tasks and deadlines in a fast-paced environment

Projects

LifeGym   02/2025 – present

Backend

- Built a **Laravel-based scheduling system** for users to book, update, and delete meetings with coaches.
- Designed **RESTful APIs** for seamless appointment management.
- Implemented **authentication and role-based access control** for users and coaches.
- Utilized **MySQL with Eloquent ORM** for efficient data handling.
- Enhanced **user experience with a responsive and intuitive UI**.

Notera   01/2025 – 02/2025

Backend

- Developed a **full-stack Laravel application** for note-taking and organization.
- Implemented **CRUD functionality** for notes and notebooks.
- Designed **RESTful APIs** to manage user interactions efficiently.
- Utilized **MySQL for database management** and Eloquent ORM for smooth data handling.
- Ensured **secure authentication** and user-friendly UI.
