Profile

Recent graduate with solid skills in Java, Spring Boot, data structures, HTML, and CSS. I developed web applications during my studies, focusing on user-friendly design and strong back-end functionality. Eager to learn and contribute to innovative projects in a collaborative environment, I bring adaptability and a problem-solving mindset to any team.

Education

Bachelor's Degree - Computer Science, *Yarmouk University* 📄 2020 – present

Projects

Smart Shop

Developed Smart Shop, an e-commerce platform using Java Spring Boot for backend development. The project included building RESTful APIs, implementing secure user authentication and authorization with Java Security, and integrating a responsive frontend using HTML, CSS, and JavaScript

Med Track

Developed Med Track, a mobile application for managing medical records using Android Studio. The app features a user-friendly interface designed with XML, patient record management, push notifications for appointments, and secure user authentication.
