

OBJECTIVE

Highly motivated and results-driven backend engineer with experience in Python/Flask and cloud technologies. Seeking a challenging position to leverage my technical expertise, problem-solving skills, and hands-on experience to contribute to the growth and success of a dynamic organization.

SKILLS

- Programming Languages: Java, Python/Flask, JavaScript
- Experience in handling popular developmental software such as HTML, CSS and JavaScript.
- Databases: PostgreSQL
- Version Control: Git
- Problem-Solving and Analytical Skills
- Experience in pandas
- Software Design: Experience with modular and scalable system architectures
- Cloud Technologies: AWS Certified Cloud Practitioner

ACHIEVEMENTS

- Working successfully with multiple developers while getting trained and providing outputs within the deadline.
- Built all RESTful APIs for a mobile application
- Capable of designing and implementing scalable, maintainable architecture, with a focus on modularity and clear separation of concerns for ease of future updates and troubleshooting.

PROFESSIONAL EXPERIENCE

Michel Daher Foundation (2021-2024)

Trainee and Junior Developer

- Completed an intensive training program on software development, focusing on backend technologies and best practices (Python, Flask, PostgreSQL, SQLAlchemy, GIT).
- Gained hands-on experience in designing and implementing backend systems, working with databases, and deploying applications.
- Developed a solid understanding of software engineering principles and methodologies.

EDUCATION

Masters in Bio-Chemistry from Lebanese University
