PROFILE

My name is Clara Attieh, a 3rd-year Computer Engineering student minoring in Data Analytics at the Lebanese American University. I am driven and highly passionate about web development, with a profound passion for crafting exceptional online experiences. Web development offers me the perfect intersection of creativity and problem-solving, fueling my dedication to exploring both front-end and back-end development. In addition, I am deeply interested in understanding data and artificial intelligence algorithms within data analytics, as well as hardware technologies and innovation.
