Professional Summary

Data science student with a strong background in biology and linguistics, bringing hands-on experience in data analysis, programming, and visualization. Skilled in using advanced tools such as Python, R, SQL, and Power BI to extract insights and create data-driven solutions. Proven ability to collaborate on team projects, delivering results efficiently and effectively. Seeking a data analysis internship to apply my technical skills and analytical thinking to real-world challenges.

Education

- **Bachelor of Science in Biology**
  Lebanese University, 2016 – 2019
- **Master 1 in Animal Biology**
  Lebanese University, 2019 – 2020
- **Degree in English Linguistics**
  Lebanese University, 2017 – 2020
- **Bachelor in Computer Science -Data Science (In Progress)**
  USAL, 2022 – Expected Graduation: early 2025

Professional Experience

- **Teacher**
  Al-Rahma High School, 2020–2021
  - Taught English for grades 2 and 4, and science for grade 4.
  - Delivered lessons to classes of disabled children, tailoring methods to suit their needs.

Projects

- **Data Visualization Project**:
  Analyzed a lung cancer survey and created insightful visualizations to showcase trends and key findings.
- **Web Project**:
  Collaborated with a team to design and implement a functional web application, contributing to front-end design and back-end integration.
- **Power BI Project**:
  Utilized Python in combination with Power BI to create interactive dashboards and analyze data effectively.
- **Database Labs**:
  Conducted hands-on labs using SQL, MySQL, and PostgreSQL, demonstrating expertise in data storage, retrieval, and management.

Skills

- **Programming**: Java, Python, R
- **Data Analysis and Visualization**: Power BI, Excel
- **Database Management**: SQL, MySQL, PostgreSQL
- **Interpersonal**: Effective communication, interdisciplinary collaboration, research and analytical thinking
