Tanta , Egypt

OBJECTIVE

Seeking a challenging position in the technology field to leverage my expertise in UI/UX design, cloud computing, and programming fundamentals. Aiming to contribute to innovative projects at the intersection of user-centered design, scalable cloud solutions, and efficient software development, with a focus on practical problem-solving in areas such as cloud architecture, AWS environments, and intuitive user interfaces.

EXPERIENCE

- **Company Orange Digital center** 11 2024 - 12 2024
Intern Remote
 - Engineered virtual machine environments, optimizing system deployment and resource allocation for training scenarios.
 - Developed and configured AWS services, including EC2 instances, Lambda functions, S3 storage, and AMIs, enhancing cloud service deployment efficiency.
 - Conducted performance testing on cloud setups to validate scalability and reliability under various load conditions.
- **Company camp coding** 6 2023 - 7 2023
UI/UX Intern Tanta, Egypt
 - Designed wireframes and interactive prototypes for mobile applications using Figma .
 - Conducted user research and usability testing, leading to improve user satisfaction.
 - Collaborated with the development team to integrate design feedback into the final product.

EDUCATION

- **Tanta University** 10 2020 - 8 2024
Bachelor Tanat, Egypt
 - GPA: 3.10/4.00
- **Computer Science and Information Technology** July 2024
Pre-University Education Tanat, Egypt
 - Grade: 77.50%
- **Om El Momneen** 8 2020
Secondary Education Tanat, Egypt
 - GPA: 3.70/10

PROJECTS

- **Project A: Restaurant Ordering Interface** 8 2024
Tools: Figma 
 - Designed interface for Restaurant to make it easy to order
 - Implemented UX research to collect specific informations about users , achieving the most comfortable interface
 - Created deffrent departments , ensuring all payment options is allowed
 -
- **Project B: E-Commerce Platform UI Design** 1 2024
Tools: [Fima] 
 - * Designed interface for E-commerce website to make it easy to use
 - * Implemented user research methods to gather specific insights.
 - * Created interactive product visualization tools to enhance the user experience and help customers make informed purchasing decisions
 - * Developed reusable UI components (e.g., navigation bars, product cards, and filters) for seamless integration with the e-commerce platform, ensuring a consistent and scalable design system.

HARD SKILLS

- **Specialized Area:** cloud computing , Devops
- **Programming Languages:** c sharp, php , c++
- **Web Technologies:** Html , Backend with php , SQL
- **Cloud Technologies:** AWS practioner
- **DevOps & Version Control:** Docker , vmware , Git
- **Other Tools Technologies:** Linux , Figma

SOFT SKILLS

- **Communication .**
- **Teamwork .**
- **Networking .**
- **Leadership .**
