### PROFILE

I am a 4th-year Computer and Communication Engineering student with hands-on experience gained during an IT internship at Touch. I have a strong understanding of Java and C++, enabling me to tackle complex programming challenges and develop efficient solutions. My academic background has provided me with a solid foundation in software development. I excel in teamwork, communicate effectively, and adapt well to new challenges. Driven and innovative, I am committed to delivering impactful results.

### WORK EXPERIENCE

#### Internship - Information Technology Department

Touch 09/07/2024 - 31/08/2024

- Gained hands-on experience working with ASP.NET to develop and maintain web applications.
- Worked extensively with databases, managing and optimizing tables to ensure data integrity and efficient performance.
- Collaborated with the IT team to troubleshoot and resolve system issues.
- Enhanced technical and problem-solving skills while working in a dynamic, professional environment.

#### Internship at LEMEX

Lemex juin 2023-aout 2023

- It was a two-month internship in a company specializing in elevators and escalators. I gained insight into this field and benefited from communicating with clients.
