ABOUT

Passionate about web development, I am a full-stack developer who recently graduated in software engineering. I have a solid experience in creating web and mobile applications, and I constantly strive to develop efficient and innovative solutions. Currently, I am looking for new job opportunities to use my skills and continue to evolve in this field.

PROFESSIONAL EXPERIENCE

FullStack Developer at Genext Factory Sousse   July 2024 - Present

- Development of an e-commerce platform with Next.js and Strapi
- Participation in the design of an e-commerce site allowing several stores to manage and sell their products online.
- Use of Next.js for efficient and responsive rendering, and Strapi for centralized content management

End of studies engineering cycle internship, Fullstack Developer at Genext Factory Sousse   February 2024 - June 2024

- Design and development of an online booking web application for hair care and haircuts using Remix, nodejs, GrapQL, Prisma and Zitadel technologies.
- This site aims to simplify the appointment booking process for customers while providing a user-friendly and efficient platform for beauty service providers. Its key features include an intuitive user interface, service selection, real-time calendar, detailed profiles, providers and user account management.

FullStack Developer at Genext IT Sousse   Juilliet 2020 - Juin 2022

- Development of an e-commerce site under PrestaShop, as well as an official company site using Drupal, following designs created on Figma.
- Creation of a dynamic e-commerce site with React, integrating advanced features to improve the user experience.
- Actively participate in the study, design, and development of new applications while respecting the objectives of the project.
- Propose and implement innovative technical solutions, while following best practices in development.
- Collaborate closely with the technical team to quickly identify and resolve technical problems, thus improving the stability and performance of applications.

Bachelor's degree end-of-study internship, Fullstack Developer at Genext IT Sousse   February 2019 - June 2019

- Design and development of a mobile application that connects associations and volunteers with Ionic, nodejs, Express and mongoDB technologies.
- This application aims to build a dynamic community, facilitating the search for missions for volunteers and recruitment for associations. By integrating modern technologies, it can optimize community engagement and effectively support volunteer actions.

EDUCATION

Software Engineering Diploma   **Sep 2021 - July 2024**
EPI Digital School, Sousse

Computer science degree :   **Sep 2016 - June 2019**
Multimedia and web development
Higher Institute of Technological Studies, Kairouan

TECHNICAL SKILLS

- **Programming languages::** JAVA, PHP, C#, C, JavaScript, TypeScript, Python, Swift
- **Database:** MongoDB, MySQL, SQLServer, PostgreSQL, Firebase, PL/SQL
- **Frameworks and tools:**
  Frontend : React.js, Next.js, Remix
  Backend : Node.js, Express, ASP.NET, Strapi, JEE, Prisma
  Mobile : Android, iOS (Swift), Flutter, Ionic
  API / Requests : GraphQL

LANGUAGES

- **French:** Fluent
- **English:** Fluent
- **Arabic:** Native language
- **Italian:** Intermediate

INTERESTS

- **Football**
- **Music**
- **Travel**
