WORKSHOPS IN WEB DEVELOPMENT

ARAB OPEN UNIVERSITY, LEBANON, FOR 6 MONTHS

- Front-end web development: HTML & CSS & Java and React (present) Script Bootcamps for development and build websites from scratch.
- Back-end web development (present): Express JS and My SQL with Node.js (Run Time environment)
Note: There is a certificates and Final project for each Fild in GitHub

Java Programming & C#

ARAB OPEN UNIVERSITY, LEBANON, 3 Courses

- In my Java basics course, I learn foundational programming concepts like syntax, variables, data types, control structures, and object-oriented principles.
- Object-oriented principles involve concepts like classes, objects, inheritance, encapsulation, polymorphism, and abstraction to create modular and reusable code.

Python Programming

ARAB OPEN UNIVERSITY, LEBANON, 1 Course

- In my Python basics course, I learn core programming concepts like syntax, variables, data types, and control structures.
- Additionally, Python emphasizes object-oriented principles, including classes, inheritance, encapsulation, and polymorphism for modular and reusable code.
- Python's Turtle graphics is a module that introduces basic programming through visual drawing, allowing you to control a "turtle" to move, draw shapes, and create patterns on the screen using simple commands.

STUDIO & COPY CENTER (Family Business)

STUDIO AL AFRAH, LEBANON, 2019 – 2021

- Photographing and editing images using Photoshop in an environment that requires teamwork, which developed this skill in me.
- Dealing with, modifying and printing all documents, in addition to working on many types of printers and maintaining minor faults, in addition to all definitions for printers and the necessary programs for the computer.
- Professional photo sessions for the couple with the required image adjustments using Adobe programs (Photoshop and Lightroom).
