SUMMARY

Dedicated computer science student with a strong academic background. Recently earned a Technical License Diploma (LT) after achieving a Superior Technician Diploma (TS) . Proficient in both theory and practice, eager to apply knowledge professionally and leverage technical expertise for organizational success.

EXPERIENCE

Student
Higher Orthodox Vocational Institute
10/2021 - 07/2024
Cheikh Taba/Akkar

Akkar/ North Lebanon

- Recent computer science graduate with a technical certification. Completed a six-month remote internship as a software developer at RUMUZ Solutions LLC (April 1, 2024-SSeptember 15, 2024). Focused on front-end development using Angular 17, with responsibilities including designing user interfaces, enhancing user experience, integrating APIs, debugging, and optimizing code. Proficient in TypeScript, HTML5, CSS3, Git, and Visual Studio Code.
  Gained significant technical skills and contributed to developing application features. Demonstrated a strong work ethic, maintained a positive attitude, and consistently met deadlines despite time zone challenges. Received a monthly stipend of $250, paid in cash through a representative in Lebanon. The company expressed satisfaction with my performance and confidence in my future potential. Eager to leverage acquired skills in a professional environment and advance my career in software development
