SKILLS

Technical Skills

- Programming Languages: C/C++/Python/Java/C#
- Database Management: SQL
- Software Development: Object-Oriented Programming(OOP), Data Structures, Algorithms
- Proficient in ASP.NET Core for developing scalable, high performance web applications
- System Administration: Linux (user management, file systems, networking basics)
- Version Control: Git, GitHub

EDUCATION

Lebanese University | 2024–present

Masters in Computer Science

Lebanese University | 2021–2024

Bachelor of Computer Science

- Grade : 3.5/5
- Relevant courses : Data Structures, Database, Imperative Programming, Networking, Object-oriented Programming, Web Development, Parallel Programming, Operating System, ASP.NET Core

Saint Joseph de l'Apparition Saida | 2021

High School Diploma

PROFESSIONAL EXPERIENCE

Programming Tutor | 2024–present

Self-employed

- Guided students in C and Java programming fundamentals.
- Delivered lessons on object-oriented programming and debugging techniques.
- Mentored learners in building foundational coding skills and solving real-world problems.

PROJECTS

Database Application
- Objective: Developed a database application to manage and track student records, improving data entry, retrieval, and reporting efficiency
- Technologies: SQL, Javafx

Guessing Game
- Objective: Developed a simple guessing game using the tkinter library for GUI
- Technologies: Python, Tkinter

Gym Database Management System

- Built a gym member management application using Python and Kivy.
- Developed the prototype with Tkinter for initial design validation.
- Implemented features for member registration, updates, and database management.
- Technologies: Python, Kivy, SQLite.

CERTIFICATES

Linux Administration: The Complete Linux Bootcamp in 2024, Udemy | 2025

- Masterng all important Linux commands
- Understanding Linux File Permissions, Processes, User Account Management, Linux Networking and Software Management

LANGUAGES

- Arabic : Native
- English : Proficient
- French : Proficient
