PROJECTS

Food E-Commerce Website:

Developed a fully functional food e-commerce website as a university project, utilizing HTML, CSS, JavaScript, PHP, and T-SQL with Microsoft SQL Server Management Studio for database management.

Engineered a Gaming Platform:

A groundbreaking gaming platform meticulously crafted to redefine the gaming experience for enthusiasts, developers, and the gaming community and streaming. With a commitment to innovation and seamless interaction, Game Forge aims to set new standards in the gaming industry.

Restaurant Menu: Built a Demo website for a Restaurant to let people order food on the website by using HTML, CSS, JavaScript.

UDEMY COURSES

The Complete SQL Bootcamp: Go from Zero to Hero (Jose Portilla)

I learned how to read and write complex queries to a database using one of the most in demand skills - PostgreSQL.

Microsoft Excel – From Beginner to Expert (Todd McLeod)

This training provided me everything I need to know about Microsoft Excel. From the fundamentals, to the most advanced features.

PHP & MySQL course for absolute beginners | Become a PHP pro (Dary Nazar)

In this course I learned the basic topics in PHP and MySQL.

Introduction to Python Programming language for beginners (Norhan Khafaga) and The Ultimate Python Course: Learn Modern Python in 2022 (David Morgan)

In these courses I learned the basic topics in Python.
