English - Fluent

Objective

Self-taught full-stack web developer with a proven track record of leveraging new tools and technical developments. Proficient in NodeJS, ReactJS, AWS, Typescript, and Javascript. With a strong focus on design, problem-solving, and the latest technical advancements, I am eager to contribute to a dynamic team and further develop my skills in a forward-thinking environment.

Employment

Freelance Web Developer   **Jun 2022 - Present**

- **Led full-stack development** from initial concept to production deployment, including automated pipelines and testing.
- **Designed, implemented, and deployed scalable software solutions**, incorporating automated deployment pipelines and API documentation.
- **Built and launched cloud-based systems** with end-to-end automated testing and deployment pipelines, ensuring seamless production releases.
- **Developed and maintained SaaS platforms** from idea to live deployment, with automated testing, deployment pipelines, and comprehensive API documentation.
- **Managed the full development cycle** of web applications, integrating automated pipelines, testing, and creating API documentation for efficient delivery.
- **Utilized AWS platforms** to build, deploy, and scale applications, leveraging services like EC2, S3, and Lambda for robust, cloud-based solutions.
- **Created and maintained comprehensive documentation** for applications, including API documentation using Swagger, to ensure clear, accurate, and accessible information for developers and end-users.
- **Implemented automated testing frameworks** to enhance code quality and reliability, integrating continuous integration and delivery pipelines to ensure high-quality releases.

Achievements

- **Completed an intensive Linux course** by Dot, gaining advanced skills and knowledge in Linux system administration and management.
- **Completed an intensive computer course** by ICDL, mastering the latest Microsoft Office applications and enhancing proficiency in essential productivity tools.
- **Completed a course in Adobe Photoshop and Adobe Illustrator**, acquiring skills in creating visually appealing and simple designs.
- **Volunteer with the Red Cross EMS and Youth Sector**, demonstrating strong leadership, communication, and efficiency in managing emergency and crisis situations.

Education

B.S in Computer Science (Ongoing)   **Oct 2023 - Present**
Lebanese University
