WORK EXPERIENCE

Network Engineer | Terranet

MAY 2024 – JUL 2024

- Worked on network design projects by developing and solving the problems that the company was suffering from including : weak network design, low power technology, unplanned structure, low performance, low level security.
- Worked on static and dynamic routing protocols including : EIGRP, OSPF, BGP using Packet Tracer.
- My tasks were in the area of IP, TCP, HTTP, SMTP, POP, IMAP, FTP protocols and configuration of switches and routers.
- Worked in network monitoring tools and network security.

Marketing Representatives | Rest House Tyr Hotel & Resort

JUN 2023 - AUG 2023

- Developed comprehensive marketing strategies and campaigns aligned with the company's goals and objectives named The Avenue Outlet.
