📍 Beirut, Lebanon

Exploring opportunities for a programming role that will not only advance my expertise but also offer stability while fostering my professional development and contributing to the organization's success. I aim to leverage my technical skills and problem-solving abilities to create impactful solutions and collaborate effectively with teams to achieve strategic objectives.

## Experience

### ● Sales and Customer Operations Support

June 2024-Present

- Worked at a leading **Power and Lighting company**, specializing in computer accessories, laptops, and hardware maintenance. Provided sales, customer service, and operational support. Assisted customers with inquiries, managed data entry, and ensured the smooth operation of systems, taking responsibility for all aspects of daily functions.

### ● Offensive Cybersecurity Bootcamp

February 2024-March 2024

- Completed intensive training with **Semicolon Academy and Google Developer Group**, focusing on penetration testing and vulnerability analysis using Burp Suite and Kali Linux. Proficient in identifying and exploiting web application vulnerabilities, including raw editing of HTTP requests via proxy.

### ● Web Development Internship at TechnoCity

July 2023- October 2023

- Assisted in the development of a Laravel-powered e-commerce platform, specializing in category-product management and optimizing performance for enhanced user experience.
- Developed mobile applications using Flutter, contributing to the creation of user-friendly interfaces and gaining proficiency in the framework's widgets for responsive design.

## Education

### ● Semicolon Academy

AUG 2024 - SEP 2024

- Ethical Hacking Foundation
- Completed a comprehensive course covering Cybersecurity, Network Security, Web Application Penetration Testing, Bug Bounty Hunting, and expert-led sessions.
