Promoted for delivering high-quality output and entrusted with leading a team of juniors. Motivated to learn, grow and excel in the financial technology industry.

Work Experience

Career Break

09/2023 - Present

- Took a career break after a layoff due to organizational restructuring, using the time to complete relevant online courses, enhance professional skills and stay updated on industry trends.

Senior Research Analyst - Corporate Intelligence Unit

12/2020 - 08/2023

Teaser Platform - Beirut, Lebanon (Remote)

- Successfully contributed to the creation of over 6,000 detailed profiles on private companies across diverse sectors in the MENA region, with a strong emphasis on the GCC market.
- Identified and compiled critical corporate data using secondary sources, including management, financial reports, investments, projects and business news, ensuring high-quality insights.
- Extracted and analyzed key data from financial statements, enabling accurate tracking of investments, divestments, share capital changes, dividends and acquisition deals.
- Maintained up-to-date company profiles by regularly reviewing and revising information, improving data validation processes and achieving high data accuracy for client use.
- Led and mentored a team of 4 juniors by providing guidance and performance evaluations, resulting in measurable improvements in team productivity, efficiency and output quality.

Researcher

01/2019 - 05/2020

Investera - Abu Dhabi, United Arab Emirates

- Contributed to the development of a startup data platform by researching and sourcing up-to-date information on startups, private and public companies, enriching the database with the latest insights on venture capital, private equity, investments and acquisitions.
- Curated daily newsletters featuring top financial news and trending business events, ensuring timely and engaging content delivery to subscribers and social media audiences.
- Supported the creation of industry reports by conducting market research and contributed to the refinement of system features, enhancing functionality and user experience.
