Demonstrated experience in selling products to prospective customers.

Developed and maintained strong customer relationships, ensuring repeat business.

Sales and negotiation skills and products knowledge and presentation.

EDUCATION

BACHELOR

NATIONAL EDUCATION HIGH SCHOOL / MARUN ABOUD

Year of passing : **2021**

COMPUTER SCIENCE

LEBANESE INTERNATIONAL UNIVERSITY

Year of passing : **Estimated year to finish major: 2024**

PROJECTS

MINISTRY OF AGRICULTURE FARMER REGISTRATION

Implemented robust security protocols to protect sensitive data and ensure compliance with national data protection regulations in IDS.

Designed an intuitive user interface to facilitate seamless data entry and management for the farming community.

Integrated a back-end system to manage and store farmer data efficiently.

Conducted regular testing and debugging to ensure the website's functionality and performance met the Ministry's standards.

LEAVE MANAGEMENT SYSTEM

Developed a Leave Management System in MT2 using ASP.NET Core7 ,C#, HTML, CSS, JavaScript,MVC and JQuery.

Developed a secure authentication, authorization system to ensure data privacy and role based access.

Developed the application in API back_end and MVC front_end, developed an login page for the employees and making the overflow fo the leave request.

One of the primary challenges during the project was designing and implementing intricate leave approval workflows, then I customised

the system logic to support multiple approval levels allowing for flexible workflow configuration.
