Summary

As a dedicated Computer Science student, I embody a strong work ethic and an insatiable curiosity for the technological world. I pride myself on being a fast and efficient learner with a serious and logical mindset. Having a broad knowledge in several fields of computer science and a collaborative nature, which enhances my ability to work seamlessly within teams, makes me a well-equipped individual ready to tackle diverse challenges. I am eager to leverage my skills to contribute to innovative projects in the rapid changing world of computer science.

Experience

Frontend Development Intern   **(August 2024 – October 2024)**

Hiperlinx Cybersecurity, Beirut, LB (Hybrid)

- Worked with new technologies such as React JS, Node JS, Bitbucket, GIT, Postman, and PostgreSQL.
- Designed and cooperated in creating intuitive UI/UX using Figma and design principles.
- Developed Frontend features, components, and efficient project structure with React JS and Vite.
- Contributed to some basic backend work and incorporated backend with frontend.

Personal Projects

- Worked in projects in the following areas: Web Development (HTML, CSS, PHP), Android Application Development (Java, SQLite).

Education
