EDUCATION

Lebanese American University, Bachelor of Science in Computer Science

Sep 2023- Present

- Received the prestigious USAID HES scholarship, awarded to only 80 students across Lebanon.
- Placed on the Dean's Distinction list. *Expected to Graduate in May 2026*
- Actively participated in the Google Developer Student Club, Software Engineering Club, and monthly workshops.

PROJECTS

SmartBrain Face Recognition Website: Developed a web application using React that detects faces in images by leveraging an image recognition API. Built a dedicated server and database with Node.js and Express to handle requests and store user data. The application allows users to upload a photo, automatically detecting and highlighting facial features with high accuracy.

ACHIVEMENTS

Millennium Fellowship alumnus

Sep 2024- Dec 2024

- Worked alongside a global network of change-makers to create and implement impactful community projects aligned with the United Nations Sustainable Development Goals.

LEBNET Tech fellow

Jan 2024- May 2024

- Participated in the LEBNET Tech Fellows program, gaining mentorship from industry leaders, exposure to cutting-edge technologies, and insights into the global tech ecosystem. Enhanced technical and professional skills through hands-on workshops and networking opportunities.

VOLUNTEERING

LAU USAID HES Program, Tutor & Volunteer

Sep 2023 - Present

- Tutored Python.
- Contributed 200+ hours to volunteer initiatives across Lebanon and in LAU events (Graduation, open days, you @lau), supervised by the USAID Program.

Local Community
