PROFILE

Motivated electronics engineering student with hands-on experience in customer service and team management. With a year as a waiter and two years as a store manager, I've honed skills in communication, problem-solving, and leadership. Passionate about leveraging my technical education and practical experience to contribute to dynamic, solutions-focused teams.

WORK EXPERIENCE

- **Sol Bistro** 2023 - 2024
Waiter
 - Delivered high-quality service to guests in a fast-paced dining environment, ensuring customer satisfaction and loyalty!
 - effectively managed a section of 8-10 tables, balancing multiple priorities to maintain efficiency during peak hours!
 - Upsold menu items and promoted daily specials, contributing to increased sales revenue!
- **European Outlet** 2021 - 2023
Store Manager
 - Upsold menu items and promoted daily specials, contributing to increased sales revenue!
 - Consistently provided accurate and efficient cash handling, including processing payments and managing refunds!
 - Successfully upsold products to customers by offering tailored recommendations based on their needs and preferences!

TECHNICAL SKILLS

- Microsoft Word: Skilled in document creation, formatting, and collaboration using advanced features like styles, mail merge, and track changes.
- Microsoft PowerPoint: Proficient in designing impactful presentations with animations, charts, and multimedia.
- Microsoft Excel: Advanced in data analysis with functions (VLOOKUP, IF), pivot tables, charts, and macros (VBA).
- Java: Experienced in object-oriented programming, core libraries, and database connectivity (JDBC).
