## Summary

Highly skilled front-end developer with over three years of experience in building user friendly web applications. Proficient in React, JavaScript, HTML, CSS, NextJS, bootstrap, Firebase, and UI/UX design. Experienced in full stack development, project management, and eCommerce platforms. Moreover, I am improving myself in more things like Node.js, Ejs, Express.js, and MVC.

## Skills

- Front-End Development: React, JavaScript, HTML, CSS, and Bootstrap.
- Backend integration: Firebase, and GitHub.
- UI/UX Design: Figma, responsive design, and wireframing.
- eCommerce Development: Admin page management, and Firebase database integration.
- Project Management: client communication.
- Other Tools: Git version control, problem-solving, and debugging.

## Professional Experience

**Freelance Web Developer** (website: <https://smart-and-sweet.vercel.app/>)

Smart and Sweet – Mount Lebanon

December 2023 – Present

- Designed and developed a full-featured eCommerce website, **Smart and Sweet**, specializing in wholesale products with a focus on chocolate, drinks, and snacks.
- Integrate Firebase for real-time database management.
- Implemented a user-friendly admin dashboard for category and product management, enabling non-technical users to make updates.

- Focused on responsive design to optimize the website for mobile, tablet, and desktop users.

**Front-End Developer** (GitHub:  
<https://github.com/BasselYazbek/react-cafe01>)

Roots Café Website – Gharifeh, Mount Lebanon

June 2023

- Create a visually appealing single-page website for Roots Café.
- Designed the page to display the menu, including item names, prices, and high-quality images of coffee and snacks.
- Focused on a clean and minimalistic UI using **HTML, CSS, and JavaScript** to provide customers with an intuitive browsing experience.
- Optimized for responsive design, ensuring compatibility across mobile devices and desktops.
