Celine Nassif

Lebanese Engineering student

I am an electrical engineering student with a passion for coding, robotics and AI. I also love teaching and challenging both my mind and my body into achieving complex tasks.

Experience

2023 – 2025
Freelance Online Tutor; Teacher / Geek express, Lebanon
My role revolved around teaching kids aged from 10 to 18 the fundamentals of programming with Python and Javascript, app and game development using MIT App Inventor as well as artificial intelligence and machine learning in Python.

2023 – 2025
President / Mechatronics club ULGF2, Lebanon
I contributed in planning and organizing every single activity held by a very popular and active club at the Engineering Faculty in Roumieh. I assigned tasks and made sure all our events are beneficing all members and invitees.

2022 – PRESENT
Volunteer robotics Tutor; Instructor / Coder Maker, Lebanon
I am volunteering in teaching, individuals of all age from private and public schools, even at ministries, programming and robotics from the basics through real-life, hands-on projects using Arduino and RaspberryPi.

Education

2022 - PRESENT
Electrical Engineering / The Faculty of Engineering - Roumieh, Lebanon
I am pursuing a degree in electrical engineering, specializing in Power and Automation.

2006 - 2021
High School Diploma / Val Pere Jacques, Lebanon
Lebanese Baccalaureate in General Sciences
