Links | Github Linkedin

City | Beirut , Lebanon

Second-year Business Computer student with hands-on web development experience and strong teamwork and management skills. Proficient in React, Node.js, HTML/CSS, and additional programming languages. Seeking to leverage leadership and technical expertise in a dynamic, collaborative environment.

EXPERIENCE

1. **Hurdle Solutions (Intern)** – North Carolina | *2 months*
Reference: hurdlesolution@gmail.com / +1(910)390-006
- Designed a **custom Figma dashboard** and implemented it for full responsiveness.
- Built a **pop-up feature** with edit and delete options to manage appointments, ensuring a smooth user experience.
- Collaborated with a cross-functional team to refine functionality and deliver **user-friendly** interfaces.
2. ***SACS IT (Intern)*** | *1 month*
- Developed a **login and sign-up verification page** using widgets, incorporating secure authentication.
- Streamlined user flows through clear navigation and error handling.
- Worked closely with developers and testers to meet project deadlines and maintain **high-quality** standards.
3. ***4 Finance Training Full Stack Web Development*** | *3 months*
- Achieved project completion ahead of schedule by boosting team performance through regular check-ins.
- Built responsive websites using HTML, CSS, JavaScript, and frameworks like React and Node.js.
  Projects
  - **GitHub Portfolio**
  Curated a range of assignments and initiatives showcasing full-stack development skills.
  Demonstrated proficiency in both front-end and back-end technologies through multiple web projects.
  - **Game Projects**
  Created interactive games (e.g., Hangman, Memory) using JavaScript, HTML, and CSS.
  Focused on delivering engaging gameplay and responsive design for various devices.
