Portfolio: https://ali-nasser22.github.io/MyPortfolio/

Education

Lebanese International University (LIU)

BS in Computer Science | June 2022 – August 2025

GPA: 3.92

Relevant Coursework: Data Structures and Algorithms, Database Systems, Software Engineering

Work Experience

Backend Developer Intern

XpertBot | Remote | October 2024 – Present

- Built a new registration module from scratch to streamline the onboarding process
- Designed and implemented RESTful APIs for seamless integration with the mobile development team
- Developed and maintained backend functionalities using the Laravel framework

Skills

Programming Languages: Java (Advanced), JavaScript (Advanced), TypeScript (Advanced), PHP (Intermediate), C (Basic), C++ (Basic), C# (Basic)

Frameworks & Libraries: Next.js (Preferred), React.js, Laravel, Spring Boot, NestJS, Node.js (Express), Flutter

Databases: PostgreSQL, MySQL, SQL, MongoDB

Tools & Technologies: Git, Postman, Prisma, Supabase, Firebase (Basic), Tailwind CSS

Other Skills: REST API Development, Agile Methodology

Projects

- Easy Learning (In Progress)

Next.js · NestJS · PostgreSQL

A full-stack Learning Management System inspired by platforms like Udemy. Instructors can create and manage courses, while students can browse, purchase, and take courses with ease. Includes role-based access, dynamic course content, and payment support.

Role: Sole developer — building the entire platform from scratch.

- Hospital Management System

Laravel · Blade · MySQL

A comprehensive web platform for hospital administration. Features include appointment scheduling, role-based dashboards for admins, doctors, and patients, and secure patient record management.

Link: https://github.com/ali-nasser22/HMS

Role: Designed and developed the entire system end-to-end.

- Easy Movies

Flutter · TMDB API

A cross-platform mobile app for movie and TV show discovery. Users can explore trending media, view details, and build a personalized watchlist. Fetches data from The Movie Database (TMDB) API.

Link: https://github.com/ali-nasser22/easy-movies

Role: Sole developer — handled UI/UX, API integration, and local storage.

- AI Email Generator

React · Spring Boot · Gemini AI

A smart email assistant that auto-generates reply suggestions based on incoming messages. Users input a received email and get AI-generated professional replies instantly.

Link: https://github.com/ali-nasser22/email_generator

Role: Built both frontend and backend, and integrated Gemini AI.

Certifications & Courses

CCNA 1 & CCNA 2 – Cisco Networking Academy

Data Structures & Algorithms in Java – Scott Barrett, Udemy

Spring Boot 3, Spring 6 & Hibernate for Beginners – Chad Darby, Udemy

The Ultimate React Course – Jonas Schmedtmann, Udemy

MERN Stack – Full-Stack Development – Maximilian Schwarzmüller, Udemy

Honor List Certifications – Lebanese International University

Dean's Honor List – Lebanese International University

Languages

Arabic: Native

English: Fluent in professional and workplace environments
