Address: Aley - Mount Lebanon, Lebanon

SUMMARY

A highly skilled Front-end developer with a strong foundation in HTML, CSS, JavaScript. Skilled at building responsive, accessible, and high-performance web applications. Passionate about clean UI, smooth user experiences, and translating complex ideas into elegant, maintainable code. Experienced in performance optimization and cross-browser compatibility. Collaborative, detail-oriented, and driven by great design.

EDUCATION

Antonine University: Bachelor of Technology – BTech, Computer Science (2023 - Present)

Practical Project Experience:

Chess AI Game – Front-End Developer

• **Technologies:** HTML, CSS, JavaScript

Developed an interactive browser-based chess game with basic AI logic that allows users to play against the computer. Used vanilla JavaScript to handle board state, piece movement, decision-making and game state updates. Designed the board and pieces using custom HTML and CSS for a clean, responsive interface.

• **Car Rental Website – Front-End Developer**

Technologies: HTML, CSS, JavaScript

Built a responsive web app allowing users to add, edit, delete, and browse cars for rent or sale. Implemented core features using vanilla JavaScript with a focus on dynamic interaction and clean UI design.
