SUMMARY

Highly motivated software engineering student with a strong foundation in programming, web development, and database management. Proficient in multiple programming languages, experienced in full-stack development, and adept at collaborative problem-solving. Passionate about continuous learning, innovation, and delivering high-quality software solutions.

EDUCATION

Bachelor's Degree in Software Engineering
Antonine University, Baabda
Graduation: 2025

TECHNICAL SKILLS

- **Programming:** Java, C++, Python, JavaScript, PHP, SQL, C# .NET, Android Java
 - **Web Development:** HTML, CSS, React, Laravel PHP, Figma
 - **Database Management:** MySQL, MongoDB
 - **Operating Systems:** Linux, Windows
 - **Networking:** CCNA Certified (Routing, Switching, Networks)
 - **Software & Tools:** Git, Docker, Adobe Illustrator, Photoshop
-

PROJECTS

Store Management System (*April 2023 - June 2023*)

- Developed a Java-based store management system using JSON and MongoDB.

Airline Reservation Website (*Nov 2022 - Feb 2023*)

- Designed and developed a web-based airline booking platform.

- Integrated features such as flight selection, reservations, and payment processing.

Student Information System (Oct 2022 - Dec 2022)

- Developed a C++ program that enables students to manage their course schedules.

School Management System (Sept 2023 - Dec 2023)

- Built a PHP Laravel-based system with functionalities for admin, student, teacher, and parent roles.

Mobile Airline Reservation System (March 2024 - June 2024)

- Developed an Android-based airline booking system using Java.

IoT-Based Smart Parking System (March 2024 - June 2024)

- Built a Python-based system using sensors to mark available parking slots.

Flight Reservation System (UI/UX Design) (March 2024 - June 2024)

- Designed a prototype using Figma for a flight reservation system.

Secure Web Application (Laravel) (March 2024 - June 2024)

- Implemented security features in a Laravel-based project.

Football Match Reservation System (March 2024 - June 2024)

- Developed a C# .NET application for football match reservations.

CERTIFICATIONS

- **CCNAv7:** Scaling and Connecting Networks (CISCO, 2022)
- **CCNAv7:** Switching, Routing, and Wireless Essentials (CISCO, 2021)
- **CCNAv7:** Introduction to Networks (CISCO, 2021)

JavaScript Mastery Course (2024 - 2025)

- Comprehensive JavaScript training covering ES6+, advanced concepts, and real-world projects.
 - Includes asynchronous JavaScript, object-oriented programming, and modern development tools.
-

WORK EXPERIENCE

Software Development Intern (*WEB SHELLS, Qatar*) - Summer 2023

- Developed a WordPress-based project for the company.
- Worked on a PHP-based web application.
- Gained experience in Agile development and version control using Git.

Technical Tutor (*iLearn Center, Lebanon*) - 2022

- Provided programming and networking tutoring to students.
 - Assisted students in improving coding practices and debugging skills.
-

LANGUAGES

- English: Fluent
 - French: Fluent
 - Arabic: Native
