Summary

Versatile full-stack developer with strong expertise in Drupal, custom module development, API integrations, and database management. Experienced in leading end-to-end project delivery, from product planning to technical execution. Adept at managing teams, collaborating with stakeholders, and aligning technical solutions with business goals. Passionate about building scalable, high-performance applications with a focus on user experience, innovation, and continuous learning.

Experience

USJ

Mid-Senior Drupal Full Stack Developer

Beirut, Lebanon
Sep 2024 – Present

- Led end-to-end projects, from planning and requirements gathering to execution, testing, and deployment.
- Managed a team of 4 developers, overseeing task delegation, code reviews, and project delivery timelines.
- Led product planning activities: gathered business requirements, defined technical specifications, and prioritized features based on user needs and business goals.

Drupal Full Stack Developer

June 2023 – Sep 2024

- Developed and customized Drupal themes and modules, ensuring seamless integration and performance.
- Built and integrated custom APIs to enhance website functionality and enable third-party service interactions.
- Managed Linux servers, overseeing Drupal deployments and utilizing Composer for dependency management.

Network Engineer

May 2022 – May 2023

- Configured and maintained routers and switches to optimize LAN/WAN performance
- Managed FortiGate firewalls to secure network perimeters, implementing advanced security features and web filtering
- Conducted regular network health checks and performance assessments using SolarWinds and Cisco DNA network management tools.

Btekup

React Web Developer

Zahle, Lebanon
Jun 2022 – Oct 2022

- Developed and maintained responsive web applications using React.js
- Integrated RESTful APIs for data fetching, enhancing functionality and user interactivity.
- Designed database architecture, linking front end and back end using MongoDB, while overseeing website QA

Education

BE

Antonine University, Computer and Communication Engineering

Sept 2019 – May 2024

- **Coursework:** Computer Architecture, Computer Vision, Computational Theory, Data Analysis, Web Development, UX/UI, Database Programming.

Certifications and Trainings

PMP Training Course

Apr 2025 - Present

- TIA: Technical Institute of America

Python programming and Computing

Jul 2024 - Nov 2024

- AUB: American University of Beirut

Cybersecurity: cyber day with the experts

Nov 2022

- Collaboration between BMB Smart, Arcshields Group and ESA Business School

IEEE Member

Apr 2020 - Apr 2021

- Active participation in IEEE events, conferences, and technical workshops.

Cisco CCNA

2021-2022

- Introduction to Networks
- Introduction to Cybersecurity
- Switching, Routing and Wireless Essentials
- Enterprise Network and Security Automation

Projects

FYP, Web/Mobile App and AI Models

[Mobile App Repo](#) 
[Web App Repo](#) 

- Developed a responsive web application using the Angular framework, ensuring a seamless user experience.
- Built a cross-platform mobile app with Ionic and Angular, delivering consistent performance on iOS and Android.
- Integrated Firebase for real-time data synchronization and user authentication.
- Implemented interactive features such as maps, location-based services, and user reviews.
- Developed and trained two AI models:
 - Touristic site detection using ResNet.
 - Certification details recognition using YOLOv5.
- Successfully deployed AI models within both the web and mobile applications.
- Conducted extensive testing and debugging to optimize performance across various devices.

Watkins

[Watkins](#) 

- Developed an informative website using PHP laravel framework, HTML, CSS, JS and jQuery.

Technologies and Skills

Programming Languages: HTML, CSS, jQuery, JavaScript, Bootstrap, Express, Node.js, Java, PHP, Symfony, C++, Python, Flutter, Android, Twig template

Technologies and Frameworks: React, Angular, Ionic, Laravel, Drupal

Database: SQL, MySQL, Oracle, Firebase, Mongo, SQLite, PostgreSQL

Data Analysis and Visualization: Tableau, Pandas, Matplotlib

Project Management: Microsoft Project, Atlassian Jira and Confluence

Languages: Arabic (Native), French (DEL F B2), English (Fluent)
