 Sarba, Mount Lebanon, Lebanon

SKILLS

Java
C
Html and Css
Python
Sql

EDUCATION

Computer Science Degree
Lebanese American University

2023-Present

General Science

College Saint Joseph Antoura

2008-2023

Graduated with high distinction

LANGUAGES

English 
Arabic 
French 

Profile

I am a motivated Computer Science student at LAU byblos, passionate about exploring software development and technology innovation. I am familiar with HTML, CSS, SQL, Python, Java and C. I recently completed a certificate in responsive web design and completed a month internship at Intuition. I am excited to gain practical experience in a tech environment and contribute to real-world solutions while advancing my career in technology.

WORK EXPERIENCE

Internship at a web/mobile dev Company

Simon / Souhail Jabbour, Intuition August 2024

- Gained valuable insight into web development by following a personalized study plan by Souhail Jabbour.
- Learned the basics in HTML and CSS and how front-end developers work
- Cloned a website given to me on figma
- Developed a deeper understanding of front-end development, and how to create websites from scratch.

EXPERIENCE

- Various sorting algorithms, data structures and dynamic programming problems in python and java
- IPC, process synchronization and deadlock prevention in C
- Worked in a group project using Mars to create game
- Some experience in html and css for front-end web development
- Basic skills in SQL for managing databases

CERTIFICATES

- Responsive Web Design on freecodecamp.org
