SUMMARY

As a senior computer science student at Antonine University, I have cultivated a strong foundation in programming languages such as C++, Java, and Laravel. My academic journey has been enriched by hands-on experience in web programming, utilizing technologies like HTML, CSS, JavaScript, and modern frameworks such as React.js and React Native. With a solid understanding of object-oriented programming and extensive experience in database management using MySQL and Oracle SQL, I am adept at developing scalable and efficient solutions. Passionate about leveraging technology to solve complex problems, I am eager to apply my skills and knowledge to contribute effectively in the field of software development.

EDUCATION

B.S. in Computer Science

Université Antonine

📅 2022 - 2025   📍 Baabda, Lebanon

SKILLS

- Programming Languages: Java, C++,Node.js
- Web Technologies: HTML, CSS, JavaScript
- Database Management: SQL, MySQL, Oracle PL/SQL
- Frameworks: Bootstrap, JavaFX, React.js, React native
- Version Control: Git/GitHub
- Design Tools: Figma and Photoshop fundamentals
- Cloud platforms: Microsoft Azure (devOps , database management, security tools and cloud deployment)

PROJECTS

Airbnb clone

Built a full-stack rental platform replicating Airbnb's core functionality and design using React.js, Node.js, and MySQL.
Developed a mobile version with React Native, focusing on user-friendly property views and navigation (Front-end only).
