Summary

Motivated and detail-oriented final-year Computer Science student at Maaref University, with a 3.66 GPA and a strong foundation in front-end development, programming, and object-oriented principles. Skilled in JavaScript, HTML, CSS, Java, C++, and Python, with hands-on experience in building interactive web applications. A strong team player with experience collaborating on university projects. Passionate about continuous learning and problem-solving. *" I may not know everything, but I am ready and motivated to learn everything."*

Education

B.Sc. in Computer Science (Final Year) Maaref University | GPA: 3.66

Projects

- Coffee Shop Menu Website – Developed a front-end web application using HTML, CSS, and JavaScript(🔗 <https://github.com/Maya-hub-ctrl/coffeeshop.git>)
- Doctor Appointment System – Built a responsive front-end platform where patients can book appointments, doctors manage schedules, and admins oversee operations. (🔗 <https://github.com/Maya-hub-ctrl/book-Appointment.git>)
- Mini Projects: Calculator, To-Do List, Image Slider, Random Password Generator, Weather App, Digital Clock using HTML, CSS, JavaScript.

Experience

- Self-Taught Learning – Gained in-depth knowledge of web development through various online resources, including W3Schools, where I practiced and mastered HTML, CSS, JavaScript, and python
- Team Collaboration – Worked in teams of up to 3 members on multiple university projects, enhancing problem-solving, communication, and development skills.
