Software Developer
Objective

Passionate and motivated Computer Science student seeking opportunities in software development. Eager to apply and expand my knowledge in programming, software engineering, and problem-solving through hands-on experience and continuous learning.

EDUCATION

Bachelor of Science in Computer Science | 2024–2026 | Beirut Arab University

- Programming Languages: JavaScript, Python, Java, C++, Rust
- Web Development: HTML, CSS
- Database Management: SQL
- Flutter Development Course

WORK EXPERIENCE

- Wrote end-to-end (E2E) tests to ensure system reliability and functionality.
- Developed backend microservices and containerized them using Docker.
- Integrated microservices into the API Gateway for seamless communication.

PROJECTS

E-commerce Frontend Website (Electronics E-commerce)

- Developed using HTML, CSS, JavaScript
- Implemented features like product filtering and search
- Designed and implemented a relational database using MySQL
- Developed and optimized SQL queries

User Matching Microservice (FastAPI, Python)

- Built a FastAPI microservice to match users based on partner criteria
- Integrated with API Gateway for seamless communication
- Implemented features like filter and product search
- Dockerized for scalable deployment
- GitHub: https://github.com/ahmad-youness-2005/Matching-microserive

SKILLS

- Backend Development (Python Microservices, FastAPI, .NET API Gateway)
- Docker
- End-to-End (E2E) Testing
- Web Development (HTML, CSS, JavaScript)
- Flutter Development
- Database Management (SQL, MySQL)
- Jira
- Communication & Teamwork
