I'm a Computer Science student with experience in C++, PHP, Python and Java. I love diving into software and website development, and I've got a keen interest in cybersecurity. I'm always on the lookout for ways to tackle real-world challenges using innovative technology, and I'm excited to grow as a programmer while contributing to projects that truly make a difference.

Experience

Self-Employed & University Tutor

2022 – Present

- Tutored over 20 university students in programming languages such as C++, C#, and Java, resulting in improved class performance and higher assessment grades.
- Improved student grades by 40%
- Adapted teaching methods to suit individual learning styles, improving students' academic performance by over 30% in general.
- Helped students in developing debugging and code optimization skills, enhancing their overall coding proficiency.

Skills

Technical Skills

- Programming Languages: Python, Java, C++, C#, RISC MIPS
- Web Development: HTML, CSS, JavaScript, React, .Net, PHP
- App Development: React Native
- Database Management: SQL, MySQL
- Tools & Platforms: GitHub, Mars
- Design & Modeling: UML Design

Languages

- English: Fluent
- French: Intermediate
- Arabic: Fluent
- Russian: Beginner

Education

Bachelor of Science in Computer Science at NDU

2023 – 2026

Relevant Courses: Data Structures and Algorithms, Object-Oriented Programming, Software Engineering, Calculus, Discrete Mathematics

Activities

Computer and Debate Club member • Coding • Reading • Cooking
