PROFESSIONAL SUMMARY

As a dedicated software and network engineering student with strong skills in C++, Java, Python, web development, and database management, I aim to apply my knowledge to real-world projects. I am eager to contribute my skills in full-stack development, and I'm seeking opportunities to gain hands-on experience and grow in a collaborative environment.

EDUCATION

Bachelor of Engineering in Computer and Communications (Master level)	2022 - present
Software Engineering and Networks	
Antonine University, Lebanon	

PROJECTS

Tour and Travel Website	2024
A dynamic Tour and Travel Website built with HTML, CSS, and JavaScript for the frontend, Node.js for the backend, and MySQL for database management, integrating APIs to provide users with travel information and services	

Pizza Menu Application	2024
A Pizza Menu Application developed using JavaFX and Swing, allowing users to browse and select pizza options, customize orders, and view details. The app uses a JSON file for data storage and MySQL for managing user orders and pizza menu data	

SKILLS

C++, Java, Python,
HTML, CSS, JavaScript, Node.js, MySQL,
CCNA, OOP, Figma

CERTIFICATIONS

Cisco Certified Network Associate Introduction to Networks certification	2023
Cisco Certified Network Associate Routing and Switching certification	2024
Cisco Certified Network Associate Scaling and Connecting Networks certification	2024

LANGUAGES

English (B2), Arabic (native), French
