

# ABDALLAH MAZLOUM

Mathematician

## Personal details

- ABDALLAH MAZLOUM
- abdallahmaz45@gmail.com
- 0096179314151
- Lebanon
- November 23, 2000
- Lebanese

## Skills

- Mathematical Analysis
- Complex Problem Solving
- Data Collection and Analysis
- Teaching and Instruction
- Empathy and Emotional Intelligence
- Research and Evaluation
- Teamwork
- Documentation and Reporting
- Computer Skills :MS, PowerPoint , Excel , Word

## Languages

- English
- Arabic

## Profile

Driven by a deep passion for mathematics and a strong commitment to humanitarian work, I have honed my skills as both an educator and analyst. My academic background in pure mathematics provides a solid foundation for tackling complex problems, while my teaching experience allows me to convey intricate concepts in a relatable manner. Beyond the classroom, I am dedicated to applying my skills in the humanitarian field, fostering understanding, and contributing to meaningful change in diverse communities.

## Education

- Master 1 in Finance** 2024 - Present  
Lebanese University
- Data Analytics Certified** May 2024 - Aug 2024  
Zaka Academy
- Master 1 in Pure Mathematics** 2023 - 2024  
Lebanese University
- Bachelor Degree in Pure Mathematics** 2018 - 2022  
Lebanese University

## Employment

- Maths teacher** 2022 - Present  
Lycee Rabih Al Atfal
  - Plan and implement comprehensive math curricula aligned with national standards for different levels.
  - Deliver interactive lessons that simplify complex mathematical concepts, promoting student engagement and understanding.
  - Foster a growth mindset by encouraging critical thinking, perseverance, and active participation in the classroom.
  - Prepare students for exams and standardized tests by developing targeted review sessions and practice materials.
- Meal Assistant** 2021 - 2022  
Mercy Usa
  - Monitored food distribution activities to ensure compliance with organizational standards and donor requirements.
  - Collected and analyzed data from distribution sites, tracking key performance indicators (KPIs) to assess project effectiveness.
  - Involving more in humanitarian work and plan to increase my volunteering efforts in this sector.
- Maths teacher** 2019 - 2021  
Vision Center
  - Taught math to students at different academic levels, ensuring lessons aligned with their abilities and goals.
  - Designed and implemented lesson plans that simplified complex mathematical concepts, fostering better understanding and retention.
  - Conducted assessments to track progress and provided personalized feedback to students and parents
