PROFESSIONAL SUMMARY

Results-driven Full Stack Engineer with a passion for creating innovative software solutions. Demonstrated ability to quickly acquire and apply new technologies to develop high-performance web applications. Proven experience in delivering scalable and secure applications using Angular, React, C#, .NET, and AWS. Collaborative, detail-oriented, and quick to adapt to new technologies and agile environments.

TECHNICAL SKILLS

Frontend: Angular, React, Express, Redux, Vue.js, HTML5, CSS3, JavaScript, SCSS

Backend: C#, .NET, Laravel, Node.js, RESTful APIs

Cloud & DevOps: AWS, Azure, Docker, CI/CD, Git

Database: SQL Server, MySQL, PostgreSQL

Other Tools: Firebase, OData, Elasticsearch, Bash

PROFESSIONAL EXPERIENCE

DevOps Engineer – Nebulane (Remote, Dubai) | Jan 2025 – May 2025

- Deployed and managed applications using AWS ECS, improving uptime to 99.99%.
- Streamlined CI/CD pipelines, reducing deployment time by 45%.
- Implemented secure infrastructure monitoring with CloudWatch and ECS logs.

Full-Stack Software Engineer – Inmind.ai (Mansourieh, Lebanon) | Oct 2023 – Sept 2024

- Built and integrated modular frontend and backend components using Angular, Firebase Auth, and OData, enabling a multi-tenant system across 5+ business branches and reducing onboarding time by 30%.
- Developed and deployed microservices with Elasticsearch and Kibana for end-to-end logging and analytics, boosting observability and debugging speed by 50%.

Full-Stack Web Developer – BIM POS (Dora, Lebanon) | Apr 2023 – Sept 2023

- Developed a scalable Vue.js and Laravel-based food ordering platform, improving order throughput by 40%.
- Designed and implemented RESTful APIs and MySQL data models for reliable backend integration.

Frontend Developer & DevOps – Inmind.ai (Mansourieh Lebanon) | Aug 2022 – Dec 2022

- Built Angular.js frontend dashboards integrated with REST APIs for real-time data visualization.
- Dockerized components and deployed cloud services to AWS for scalable distribution.

Full-Stack Software Engineer – EasySoft S.A.R.L (Achrafieh, Lebanon) | Jan 2022 – Jun 2022

- Developed responsive ASP.NET components for a GPS tracking platform used by 5+ fleet management clients.
- Created mobile display simulation tools, increasing mobile user engagement by 30%.

EDUCATION

Antonine University, Lebanon

B.E. in Computer & Telecom Engineering – Software & Networks | Sep 2020 – Jun 2025

Certifications: Cisco CCNA (Routing, Security, Linux), Microsoft Entity Framework Core

LANGUAGES

English (Professional), French (B2), Arabic (Native)

SOFT SKILLS

Strong communicator | Detail-oriented | Problem solver | Fast learner | Agile team player
