PROFILE

Enthusiastic and detail-oriented Mechanical Engineering graduate with a strong foundation in engineering principles and hands-on experience in automotive technologies. Seeking to leverage technical expertise and passion for the automotive industry. Excellent communication skills, a customer-focused mindset, and a proven ability to collaborate effectively with cross-functional teams. Committed to driving customer satisfaction and contributing to business growth through innovative solutions and strong product knowledge.

WORK EXPERIENCE

Bassoul Henaine BMW

2023-2024

Automotive Sales Engineer

- Leverage technical knowledge of automotive engineering to advise customers on the selection of vehicle components and systems based on their needs.
- Provide technical support throughout the sales process, answering product inquiries, and offering solutions to address specific client challenges.
- Develop and maintain strong relationships with key accounts, helping clients optimize fleet purchases, reduce operational costs, and improve vehicle performance.

Selective Automotive Dealership

2019-2022

Sales Support Engineer - Automotive

- Supported the sales team with technical expertise during client meetings, addressing product specifications, performance characteristics, and customization options for automotive parts.
- Assisted in preparing quotes, technical proposals, and tender responses based on customer requirements and product specifications.
- Analyzed customer requirements and proposed product solutions, working closely with product managers and engineers to ensure technical feasibility.
- Conducted competitive analysis and market research to stay up to date with industry trends and competitor products.

Nissan Showroom -Baakline branch

2017--2019

Mechanical Engineering Intern/ Car salesman

- Assisted in the development and testing of various automotive systems, including suspension, steering, and braking systems.
- Gained a deep understanding of the manufacturing process and supply chain, helping to translate technical jargon into customer-friendly language for the sales team.
- Collaborated with the sales team to provide technical insights during client meetings, ensuring that engineering solutions matched customer needs.
