OBJECTIVE/Profile

I am a senior in computer science with a GPA of 3.9 and a strong foundation in full-stack development. I'm deeply passionate about building impactful, real-world software with clean architecture and purposeful design. My work reflects a commitment to quality, clarity, and continuous improvement—whether it's deploying scalable systems or writing testable, production-ready code. I've delivered projects that go beyond the classroom, combining creativity with critical thinking. As a competent and ambitious individual, I'm eager to enhance my problem-solving skills, gain broader exposure to computer systems, and deepen my experience in research and large-scale software development.

EXPERIENCE/PROJECTS

Completed an internship at Resource Group from August 1st ,2024 till September 1st ,2024:

- Managed and maintained the Certa website using PHP.
- Utilized SQL to handle and query relational databases.
- Strengthened practical skills in backend development and database management. **Developed a Battleship game in C during Fall 2023:**
 - Implemented game logic and mechanics using procedural programming.
 - Wrote detailed test suites and formal specifications to ensure correctness.
 - Gained experience in software testing and documentation.

Collaborated on the HotelOnCall web application during Spring 2024:

- Built a full-stack system for hotel service management using Node.js, Express.js, PostgreSQL, and Google OAuth.
- Integrated email notifications with Nodemailer and automated backend testing with Jest and Supertest.
- Deployed the project using Vercel and Railway and maintained CI/CD pipelines with GitHub Actions.
- Strengthened team collaboration, full-stack development, deployment, and software engineering best practices.

EDUCATION

From Aug/2023 to May/2026 American University of Beirut

Beirut, Lebanon Bachelor's degree in

Computer Science

Relevant Courses Taken:

Discrete Structures, Discrete Structures 2, Introduction to Programming, OOP, Software Engineering,

Database Systems, Computer Organization and Design, and Programming languages.

From Sept/2008 to July/2023 AL-Bayader School

Beirut, Lebanon

Lebanese Baccalaureate in General Sciences.

SKILLS

Languages: Fluent in English and Arabic (writing, reading and speaking).

Computer Skills: MS Word, Excel, PowerPoint, Java, PHP, JavaScript, HTML, ML, C, C++, Node.js, Express.js, PostgreSQL, SQL, Git, GitHub, Jira. Technical Skills: Programming, algorithm analysis (cost and time efficiency), data analysis, REST APIs, authentication (Google OAuth),

backend testing (Jest, Supertest), CI/CD (GitHub Actions), email integration (Nodemailer). **Soft Skills**: Communication, Teamwork,

Organizational, Creativity, and Management.

Note: Reference can be provided upon request.
