○ Wael-Ib

Profile

Motivated and detail-oriented Computer Science student and Web Developer with hands-on experience in building full-stack applications. Proficient in modern frontend and backend technologies including React.js, ASP.NET ⧉ MVC, and Flask. Strong foundation in software engineering principles, database management, and RESTful API design. Passionate about creating scalable web solutions and contributing to impactful projects through effective team collaboration and agile methodologies.

Skills

Frontend Development
- HTML, CSS, JavaScript, TypeScript
- React.js, Vite
- UI Libraries: Bootstrap, Material UI, Tailwind CSS

Backend Development
Frameworks: ASP.NET ⧉ MVC, ASP.NET ⧉ Web API, Flask
Languages: C#, Java, Python
Authentication: ASP.NET ⧉ Identity
API Design: RESTful APIs

Databases
- Relational: Microsoft SQL Server, MySQL, PostgreSQL, SQLite

DevOps & Tools
- Git, GitHub
- API Tools: Postman, Swagger
- Development Tools: Visual Studio, VS Code

Project & Team Collaboration
- Agile Methodologies
- Trello, Azure DevOps, Gira

Professional Experience

Web Developer   04/2025 – present | Beirut, Lebanon
Diraya ⧉
Developed a Point of Sale (POS) system using ASP.NET ⧉ MVC. Worked on both frontend and backend components, contributing to the full software development lifecycle including UI design, API integration, and database management.

Education

Computer Science   09/2022 – present | Haret Hrek, Lebanon
University Of Sciences & Arts Lebanon ⧉
Key Coursework: Advanced Data Structure, Software Engineering and related studies.

Projects

PurrfectMatch ⧉   2024

Contributed in the development in a full-stack web application to connect animal shelters with potential adopters.

- **Frontend:** Implemented a responsive UI/UX using HTML, CSS, JavaScript, and Flask templates.
- **Backend:** Built with Flask (Python) and MySQL, featuring secure user authentication and RESTful API endpoints.
- Enabled key features such as shelter/adopter role management, pet search, adoption applications, and profile management.
- Used Git for version control and collaborated in a team environment to ensure code maintainability and project scalability.
