WORK EXPERIENCE

Head Architect

2015 – Present

Self-Employed (10+ Completed Projects)

- Led end-to-end architectural design and execution of residential projects, from initial client consultations to final construction supervision..
- Developed detailed architectural plans, layouts, and 3D visualizations tailored to client needs and regulatory standards.
- Acted as the head architect on all projects, overseeing site planning, design development, material selection, and construction coordination.
- Managed contractor teams and liaised with engineers, suppliers, and municipal authorities to ensure timely and compliant project delivery.
- Ensured seamless integration of functionality, aesthetics, and structural integrity in all designs.
- Specialized in creating custom home designs, alterations, and extensions with a focus on client vision and environmental context.

Applied Digital Media Service (ADMS)

2007 – 2020

Dubai Branch Manager

2019 – 2020

Training Manager

2012 – 2019

Senior Instructor

2007 – 2012

- Delivered expert-level training in a wide range of digital media tools, including Adobe Illustrator, Autodesk software (AutoCAD, 3ds Max), and 3D design platforms.
- Created training programs for all skill levels to build technical and creative skills.
- Led and supported a team of trainers, ensuring high-quality delivery and continuous improvement.

Diwan Architecture

1992-2007

Founder and Architect

- Founded and led Diwan, an architectural firm specializing in innovative, functional, and context-sensitive design solutions for residential and commercial buildings.
- Oversaw the successful delivery of multiple high-profile projects, including residential buildings and mixed-use developments across Beirut.
- Directed all phases of the architectural process—from concept development and client engagement to design execution, regulatory approvals, and on-site supervision.
