### Skills

---

As an experienced educator, since 2005, with a strong passion for teaching, learning, and leadership, I am seeking to advance my career by moving into a more diverse role in the area of Technology.

I bring to the table a proactive mindset, strong organizational skills, and a dedication to continuous growth. I am driven by a desire to create positive, sustainable change and to contribute meaningfully to a thriving educational community. I am ready to embrace new challenges, lead with purpose, and support the vision and mission through collaborative and strategic leadership.

---

### Experience

---

#### International College / Education Technology Coordinator

2016 - PRESENT, LEBANON

##### Teacher Role:

- Led student-centered authentic learning and assessment initiatives and supported students to fulfill their maximum potential in the use of technology for learning.
- Collaborated with curriculum leaders to enhance instructional units on Atlas Rubicon, evaluate assessments, and align teaching strategies with school policies and ISTE standards.
- Facilitated the use of educational apps, tools, and platforms provided at IC to improve student autonomy, creativity, and communication in project-based learning.
- Promoted and facilitate the implementation of STEAM initiatives (robotics, 3D designs and printing) in academic programs

##### Leadership Role:

- Led school-wide tech initiatives, including SIS implementation, e-learning continuity, E-Portfolio, and STEAM integration, while coordinating with software teams and academic heads.
- Assisted in the integration of technology by providing pedagogical support to faculty and students in line with the aims of the Academic Programs and ISTE Standards
- Designed and delivered ongoing professional development for over 100 faculty members in the High School on edtech tools, instructional design, and remote learning best practices.
- Championed the integration of BYOD policies and supported faculty through customized technology development plans to boost digital fluency and teaching effectiveness.

## **Ibn Khuldoon National School / ICT Coordinator**

2005 - 2016, BAHRAIN

Teacher: Math and IT Teacher

- Teaching Math and ICT across Middle and High school
- Preparing Lesson plans based on Jay Mctighe's Understanding By Design (Identify Results, Determine Evidence, Plan Instructions).
- Introduced to the Danielson Framework for teaching.

Leadership: ICT Coordinator

- Conducted class observations, and yearly performance evaluation, and recommended professional development for faculty or staff when needed.
- Supervised textbook selection and updated ICT curriculum to enhance instructional design on Atlas Rubicon.
- Collaborated with teachers to evaluate assessment methods and improve student learning outcomes.
- Coordinated faculty training sessions to align curriculum implementation with educational goals.
