Objective

I am an undergraduate student in Education at USAL with a growing interest in educational technology. I aim to explore how digital tools can support teaching and improve student outcomes in diverse learning environments.

Education

- Bachelor's in Math and Science – University of Science and Arts in Lebanon (USAL)
  Expected Graduation: 2026
- Computer Science (Programming) – University of Science and Arts in Lebanon (USAL)
  Completed two academic years: 2023–2024
- High School Certificate – Ghobeiry Secondary Official High School
  Graduation Year: 2022

Work Experience

2023-2024 – 2025

Mediterranean School

Math Teacher

- Taught Mathematics to students in Grades 2, 3, and 4, tailoring instruction to suit varying developmental levels.
- Designed interactive and age-appropriate lesson plans using educational technology and hands-on activities
- Assessed student understanding regularly through formative assessments and provided individualized support.
- Collaborated with colleagues and parents to enhance student learning and address academic challenges.

2021-Present

Self-Employed

Private Tutor

- Provided personalized tutoring in Mathematics, Biology, Chemistry, and Physics for students across various grade levels.
- Helped students improve grades, build confidence, and prepare for exams through customized lesson plans.
- Adapted teaching methods to each student's learning style, with a focus on clarity and concept mastery.

Certifications

Web Development – Kawthar Meselmani – February 7, 2024

Hobbies and Interests

Reading, Sports, Photography, Coding
