PROFESSIONAL SUMMARY

Computer Science graduate passionate about both mobile and web development, with hands-on experience in building full-featured applications. Proficient in **mobile technologies** including Java, Kotlin, and React Native, and experienced in **web development** using React, ASP.NET, Node.js, and Express. Skilled in integrating modern tools and services like Firebase, CameraX, Google Maps, and RESTful APIs. Strong problem-solving abilities and a collaborative mindset, eager to contribute to innovative teams by delivering efficient, scalable, and user-centric solutions.

SKILLS AND STRENGTHS

- Mobile Development:
 - Android: Kotlin, Java, Coroutines, Retrofit, Room DB (SQLite), Navigation Component, CameraX, Firebase, Google Maps, MLKit
 - Cross-platform: React Native (Expo)
 - Web Development:
 - Frontend: HTML, CSS, JavaScript, React.js
 - Backend: Node.js, Express.js, ASP.NET
 - Databases: MySQL, MongoDB, SQLite
 - Tools & Others:
 - Git, GitHub, Microsoft Office
 - Soft Skills: Time Management, Teamwork, Communication, Fast Learner
-

Certificates

- Intro To Mobile Development: Coursera
 - Version Controls: Coursera
 - Programming Fundamentals in Kotlin: Coursera
-

Experience

TedMob, Beirut - Dbayeh, **Android Developer Intern** (3 months)

- Developed Android features using Kotlin and Firebase
- Assisted in debugging, testing, and implementing UI components

MERN Stack intern at **TECHLARIOUS** (2 months)

EDUCATION

B.Sc. in Computer Science – Al Maaref University (Spring 2025)

Completed online mobile development courses (Coursera, YouTube: Smartherd)

Projects

Health Care App (Kotlin)

- Built using MVVM, Clean Architecture, Firebase Auth, Google Maps
- Used CameraX + MLKit for barcode scanning
- Chat UI, ViewPager2, and Material 3 components for a modern experience

Stories Coffee Shop App (Java)

- Features: Favorites, Cart, Camera profile upload - Firebase integration with SQLite for local data storage

Sawa Mobile App (Full Stack Project Node Express Angular Kotlin)

- Secure OTP login, Node.js/Express backend, posting system, Google Maps ...
- Chat UI, ViewPager2, and Material 3 components for a modern experience
- Admin dashboard and full-stack architecture

Web Projects Practices (Published on Github: HotelAsp – Portfolio [hasandroid.tech] – Movieland)

- (Asp.net – React – Node/Express)
